EXECUTION NOBLE

LEGAL SERVICES FORUM

Legal Services Act -

The catalyst for change and opportunity for external investment

2011 will bring dramatic changes to the UK legal services landscape. Exciting investment returns will for the first time be open to external investors. This is a mature and thriving market with over £20bn of annual revenues.

Many companies and investors are beginning to explore mutual opportunities and bridge the 'knowledge gap'. Execution Noble has been the first mover amongst investment banks in this space.

We are hosting a forum at which the key issues can be debated within a small private group of investors and corporates to help parties formulate their strategies in this new market.

This forum will provide the backdrop to network and discuss opportunities with senior decision makers. Chatham House Rules will apply.
